Magento Full Page Cache helps to speed up Magento Performance – With the extension, Magento pages now load only average 3s – 5s instead of taking seconds as standard. Features - New multi-level cache to serve pages even faster - Support block updates (hole punching) for recently viewed products, shopping cart, etc. - Support MULTIPLE currencies/stores/languages - Support mobile themes - Easily access to cache custom pages - Dead simple installation – Unzip, empty cache, and enable via the Magento admin panel - Easy to manage supported block updates - Follow recently viewed products + Shopping cart + Compare products + Wish list + -Account Links + Welcome - Customers can be supported by writing simple block update container classes. Pages - - Cached By Default - CMS Pages + Product Display Pages + Product Listing Pages - 100% Open Source
