Bugzero Bug Tracking System

Address   {value_address}

Contact Person   {value_contact_person}

Mobile Number   {value_mobile_number}

Email   {value_email}

Bugzero is an easy-to-install web-based bug, defect, issue and incident tracking system. It can be customized to fit software, hardware, and help desk support situations. It is cross-platform and can be installed on Windows, Unix (Linux), IBM iSeries (AS/400), and Mac operating systems. Bugzero is also highly affordable, it minimizes the overall cost by utilizing your existing hardware and software systems and integrating with them seamlessly.
