Building Dynamic Pages With Search Engines in Mind

Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

This tutorial shows you how to make a site database-driven, but still indexable by search engines. It also explains how to create a site to be co-brandable whose look-and-feel are dependent on which "affiliate" site was being accessed.
