Built2Go PHP Car Dealer Classifieds Listings

Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

A full scale web script for listing automobiles for sale in a classifieds style. Users can also create accounts to add listings by paying per listing, or on a subscription basis for car dealers. Admin options allow you to set your own price, or offer the car listing service for free. There are many criteria for users to list when submitting their cars to the classifieds, and many searchable fields. Users can also buy advertising, or save listings or search results within their accounts.
