

Button Overkill

Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

This JavaScript takes the image substitution idea one step further to produce a toolbar in which the buttons change appearance in response to mouse movement or actions, and explanatory text appears in a little 'LCD-look' panel. Upon clicking a button link, it sends users to the selected link.
