CAPFIX - A utility to fix capitalization of MP3 files. Copyleft 2005 - Nathan E. Pralle DESCRIPTION: I wrote this to recap, properly, the filenames of MP3 files. It takes the filename and nicely recaps it in proper format. SYNTAX: This utility requires a piped listing of files to it. IE: ls *.mp3 | perl capfix This utility cannot handle full pathnames (yet, sorry) REQUIRED: Text::Capitalize module This expects filenames to be in the format: ARTIST - TITLE.mp3 or TITLE - ARTIST.mp3
