

CascadianLogin

Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

This easy to use custom tag can be used for multiple sites on a single server. It will automatically set session variables for requested fields. It can be used on single or joined tables and includes a logout mechanism. The latest version makes it easy to customize the login screen to match your site and now handles setting last login dates as well!
