

Catalog System

Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

A general use catalog system based on PostgreSQL database for Web products and services. The system consists of three database tables: Catalog, Categories, and Authors. Besides the Catalog System, the code can be used as a tool for other applications, or a teaching tool. A complete installation doc is available at http://perlsources.com/roothtmls/cat_install.html or read the about the catalog system at <http://vanabel.com/catalog/about.html>

For more details, please visit <http://scripts.goclix.com/catalog-system-12336>
