

Category Sidebar Navigation

Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

Do you wonder about changing the traditional style of categories menu in the header of Magento Store? Or Do you desire to make your store more attractive to achieve higher sale volume? Category Sidebar Navigation will be the exact answer for you. This extension lets you configure your categories navigation in the left or right position in the backend. Category Sidebar Navigation becomes perfect with easy setting process that helps you save your costly time. You are free to choose position of sidebar, category depth and show type with various choices for each. All of these steps can be done in one setting page. If you no longer want to apply it, you can turn off simply.
