

Cf_Filemanager V3.0

Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

CF_FileManager is a unique custom tag allowing a multiple of actions to be performed on files and folders. Cut, Copy and Paste files around your server. Navigate your servers directory structure by double clicking on the folder names. Copy and Delete folders and their contents, all done recurringly, over coming the limitations of CFDirectory. Upload an unlimited amount of files simultaneously, a first in any Coldfusion Custom Tag. Fully skinnable to fit into your application.
