

# CGI World's SiteSearch

<b>Address</b>	{value_address}
<b>Contact Person</b>	{value_contact_person}
<b>Mobile Number</b>	{value_mobile_number}
<b>Email</b>	{value_email}

SiteSearch gives you the ability to search your website quickly & easily by the use of the password protected browser based administration area. Set the path of the directory you want searched, set the files & directories you want searched, and also the directories & files you do not want searched. SiteSearch returns the results of a search by displaying 200 words from the text the search criteria was found in, along with the webpage title, last modified date & file size. SiteSearch is a great tool for the average website of less than 500 pages.
