

ChattyWays - A .NET webservices chat application

Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

ChattyWays demonstrates a simple, but very functional, implementation of webservices in ASP.NET as a chat app with all of the IMVironments and emoticons that are missing from Yahoo and MSN Messenger. It also demonstrates a number of useful techniques in the areas of XML, Web Services, .NET that I think you will find helpful in your everyday application development.
