Classic Accordion

Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

You have the option to use XML , which will make the accordion panel much easier to setup and maintain. However, you also have the option to use HTML instead of XML . The plugin also provides an easy to use API which will allow to further enhance the functionality of the accordion and make it possible to integrate it into your own application.
