ClassWeb is a PHP/MySQL-based system of database-driven class websites that can be administered by instructors using a standard web browser. UCLA Social Sciences Computing has been developing and using ClassWeb since 1997 with over 300 class websites per quarter. This template- and database-driven, server-side software features: ClassWeb Main Page, List of Links Page, Announcements Page, Discussion Board, Additional Class Materials, Private Directory Access; Admin can access to all student features plus Web-based editor, File Upload Utility, View Class Roster of Students, Email to Class Roster, Grant Administrative Access to Others, Generate Multiple Choice Quizzes On-Line, List Files and Directories in ClassWeb Site, File Edit / Copy / Delete Utility, Create Popup Links, and more.
