

ClickTracker

Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

This application is based off our award winning TotalAffiliate Software for those that do not need an "everything" program. ClickTracker will effectively handle running a "Click Thru" based affiliate program, where you can pay affiliates per either "Raw" or "Unique" Click. This program uses MySQL as a backend and can handle a ton of traffic daily with negligible slowdown. It is truly a world class software.
