CodeBrain IBANNER

Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

IBANNER will take up to 100 banner images. Each banner link can be individually programmed for the same window, a new window (to keep people on your page!), or a frame in a framed layout. IBANNER has programmable dwell time for delay between banners, and also offers optional sound cues to grab visitor attention each time the ad banner changes. Excellent, free download kit; solid documentation.
