CodeCharge is a revolutionary code-generating tool designed for web developers, Internet consultants, application programmers and webmasters who need to speed the deployment of database driven web applications: shopping carts, online stores, message boards and surveys - easily add dynamic content to your webpages. CodeCharge quickly produces robust, bug-free code in the language of your choice - PHP, ASP, ColdFusion, JSP, Perl and ASP.NET. CodeCharge comes with prebuilt 15 web applications, which can be seen in action and download at www.GotoCode.com. The apps include BugTrack, Events, Portal, NewsWAP, Forum, etc.
