CodeThatHint

Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

CodeThatHint is a javascript widget providing the functionality of the tool tip (hint) control. It is represented by the box with the text note, image and any other HTML content and usually displayed in response to the user action (mouse movement, click). The note usually introduces some useful and helpful information and makes site or application evaluation more convenient by shortening the learning curve.
