Colibris* is web-based software for the management of libraries, knwoledge centres or documentation centres in schools, companies, museum or other organisations. Colibris* allows you to manage your collection of books, magazine articles, cd's, video's, dvd's, software and web links in a professional and flexible way. Since it is web-based, you can allow anyone to access it from anywhere. Colibris* includes collection management, user management, loan management (including the possibility to use barcode scanners), online reservations, web links management, tools for creating PDF reports (list of items, users...), a flexible search engine, import functions for Excel, Access, SQL, XML... The software is multi-language (English, Spanish, French, Dutch). Colibris* can be customized to meet your specific requests.
