

Compare Items module for Esvon Classifieds

Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

This module is an add-on to a program which can be used as classifieds software, web-based inventory management solution, business/community portal, yellow pages script or even light-featured content management system (CMS). It allows your website visitors to view comparison page between selected items. This module makes it possible to compare items by selecting the appropriate checkboxes and clicking on "Compare" link/button. Comparison page will appear with all item fields shown so your customers could have instant vision about items difference. Compare Items module setup allows you to control comparison page opening and limit how many items can be compared
