Hit counter is an easy to use website stats script. It includes website counter & page counter in addition to full website stats. It also records the pages accessed by users, browsers used, screen resolutions etc. This info helps you know what your users like and then change your site to make it more and more user friendly. It is completely independent script that runs independently on your server. Top Hit counter is not just a website counter or a page counter but is a full website stats script. FULL FREE online demo also available. FREE Installation and support.
