ContentMan

Address   {value_address}

Contact Person   {value_contact_person}

Mobile Number   {value_mobile_number}

Email   {value_email}

ContentMan is an online content management system, which enables its users to maintain the text on their website online from anywhere in the world. It includes a user management system, and requires no third party components. Uses an MSAccess database, which is included in the download. ContentMan can be licensed for use on one or more websites. Webdesign companies can thus provide their customers with an easy to use online contentmanagement system as an extra service.
