CopThis

Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

CopThis perl cgi is a simple FREE-to-use promo script that allows your visitors to e-mail a friend with a prepared message and suggest they also come to visit your site. This is a popular method of gaining extra visitors and spreading the word! A simple password protected option allows you to add addresses or referrer IP#s to a rejection data file, and the latest version also allows you to customise the message sent to the friends of your visitors, all via a generated Admin page. MySQL NOT required. NO sleazy address harvesting involved.
