Country Redirect Pro (The Original) is a super powerful, flexible and robust PHP geoIP redirect script (geo targeting script) that allows to redirect visitors by country. In fact it makes it possible to control and maintain incoming traffic thereby diversifying its use for maximum earning and efficiency since it permits for every country to have a different redirection rule for each page of your site. Country Redirect Pro also possess many superb features like IP ban, Mass Redirection of the people from countries not specified, Easy Installer, Easy geoIP db importer/updater and, as already explained above, multiple redirection rules per country which are absent in the Lite version thus saving bandwidth easily yet maximizing profit.
