

# Create a Game Character with HTML5 and JavaScript

<b>Address</b>	{value_address}
<b>Contact Person</b>	{value_contact_person}
<b>Mobile Number</b>	{value_mobile_number}
<b>Email</b>	{value_email}

In this series we explore how to create a game character using HTML5 Canvas and JavaScript. Each part of the series will give step by step instructions how to give our character a new ability such as running and jumping. Demos and source code included.
