

# Create an Employee Photo Directory with Excel and ASP

<b>Address</b>	{value_address}
<b>Contact Person</b>	{value_contact_person}
<b>Mobile Number</b>	{value_mobile_number}
<b>Email</b>	{value_email}

This article shows how to use an Excel file as the database for an employee photo directory. As part of the Active Server Pages application it explains how to configure the spreadsheet for online use, create recordsets from the rows of data, and perform queries and navigate using a browser.
