Creating dynamic dropdown lists in mySQL

Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

This tutorial describes how to build a basic admin interface to allow you to add and delete users from the browser instead of having to Telnet into the mySQL monitor and do it manually. Main function dealt here is to create a dynamic drop down list populated with usernames in the MySQL database.
