Multi-Content Slider is a robust horizontal jQuery slider that is able to contain multiple items within each tab and also different content (Images, Text or Both) within each slide. Easy to use interface makes it easy for your customers to find what they are looking for no matter how much content you add to the banner. Adding the package to your site is simple. All you need to do is copy the js and css files to your server. (if you choose to place them in another file structure, be sure to change the link). Required associated files are jQuery and jQuery Timer Plugin (included) Copy the HTML where noted within the demo (demo also contains installation and usage). Change content by editing content within existing divs. (NOTE - DIV ID and CLASS structure IS SENSITIVE!!!) More information contained in Demo.
