Custom T-shirt Script used to create customizable online t-shirt designing site. The Custom T-shirt Software satisfies the exact needs of the customer and contains a variety of photos in the gallery and library designs. The Custom T-shirt Design Script which is designed using flash interface gives the user an option to choose their own designs. Also, the color and size of the t-shirt can be customized using the script. The design template is uploaded and the front and back view of the shirt can be changed by choosing an image from the photo gallery and text can be written on the template which is optional.
