(New 6.6) Cute Editor for PHP is by far the fastest, easiest, most powerful browser-based WYSIWYG HTML Editor for PHP applications. It enables PHP Web developers to replace the Textarea in your existing content management system with a powerful, but easy to use WYSIWYG Editor. It compatible with IE 5.5+, Firefox 1.0+, Mozilla 1.3+, Netscape 7+, Opera 9.x and Safari (1.3+). This includes Macintosh and Linux. CuteEditor toolbar is totally configurable and it is also effortless to implement. You just need a couple lines of code to add it to your application. Cute Editor has more than 5,000 customers, and has been sold in over 60 countries. 23 languages are supported, and more are being added. Cute Editor is also available for ASP.NET and ASP.
