DateClick Javascript Popup Date Picker

Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

DateClick is an ultra-fast popup calendar that allows your user to move between months, years, or even decades with speed and efficiency. Cut down on formatting errors and typos by letting your users just point and click! DateClick is 100% Javascript so it can be used with any type of page: ASP, PHP, Cold Fusion, etc., and is compatible with a wide range of browsers.
