DB-Backup for phpShop

Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

Backup you entire database for phpShop. Just click the link and it prompts you to save your whole database (structure & data) as an SQL text file. It probes your database as it runs so there is no need to tell it any table or column names. It's all done on the fly. Very easy to install and use.
