Decrypt WS_FTP passwords

Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

If you're like me, you don't write down many customers' passwords after connecting the first time to their site with WS_FTP. This program will decrypt the passwords found in the .ini files of WS_FTP. Compare to similar programs @ $15. The application works. Bottom line.
