

Degradable Tabs With jQuery UI

Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

Creating tabbed content is easy with jQuery UI. Using a simple HTML layout and calling the tabs function is all it takes. Here, I'll show you how to make a degradable tabbed interface. That is, we'll make it so the page is still readable when JavaScript is disabled. This involves hiding and showing elements using JavaScript before enabling tabs.
