

# Delivery Date and Time for Magento

<b>Address</b>	{value_address}
<b>Contact Person</b>	{value_contact_person}
<b>Mobile Number</b>	{value_mobile_number}
<b>Email</b>	{value_email}

This extension makes it convenient to manage delivery schedules both for you and your customers. The extension enables Admin to: Specify the days that are available for delivery; Specify the time that is available for delivery; Set minimal interval between the order and delivery date; Add holidays to the calendar, so that the customers won't be able to choose holiday dates for delivery; Indicate time after which same-day delivery is unavailable; Disable next day delivery; Filter and sort orders by delivery date. Specify delivery date and time when creating orders; The extension enables Customers to: Select the convenient delivery date; Select the appropriate delivery time; Leave a comment. The delivery date and time info is displayed in the Order Confirmation e-mail. The extension supports both one-page and multi-address checkout. The extension comes with a User Manual is 100% Open Source.
