

Delorie Password Manager

Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

The Delorie Password Manager is for users who have to manage a web password file, but do not have easy access to password encryptors or CGI directories. By using the Handler directive of Apache 1.1, one central CGI installed by the system administrator can handle all the password needs of the users.
