

Dev-PHP IDE

Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

This is an Integrated Development Environment (IDE) which can write and run PHP scripts. It includes such useful features as Syntax highlighting for PHP, Javascript, CSS, HTML and SQL, Full integration with the PHP parser and the PHP-GTK library. Since 1.0, it has a multi-language interface that allows you to translate the program into your language by editing a simple text file.
