DevASP GuestBook

Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

If you are interested in collecting information and comments from the users of your site then you need a GuestBook for your site. DevASP GuestBook will give you the ability to capture and store information entered by visitors on your site. It features: Stores the data in an Access database, It sends an Automatic email response to each guest when he signs the guestbook, Record Paging will give you the option to select the number of guests you like to display on one page, and GuestBook also includes an Admin page to edit and delete entries.
