

Developing Flash Chat

Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

This is a PHP4 (server side)/Flash 5 (client side) chat room program. It is easy to setup and customize. It features: private messages, review messages, IP banning, user kicking, filter for bad words, sound, etc. Available in Spanish, English, French, German, Italian, Dutch, Hungarian.... The latest version includes user list in the same window and a better method to send private messages. All settings and complete translation from a single file. You can select text order, hour displaying and automatic deletion when room is empty. Chat works with IP or password. Last update fix bugs and add smilies.
