DevGuru HTML Quick Reference Guide

Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

This is a handy 163 page reference source that defines and explains all of the HTML version 4.01 tags and their associated attributes. In addition, useful, real world, working examples of code are provided for each tag. Plus, there are write-ups, with code examples, for the 16 core attributes which are available for almost all tags. Browser compatibility for each tag is also included.
