

DHTML Financial Report demo using XBRL

Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

A demo application that uses Microsoft Internet Explorers DHTML and XML capabilities to display Edgar Online's xbrl express XML data. The report is rendered totally in the browsers using DHTML, XML parsing, and XSL transformation. The report features "frozen" rows and columns, and automatic resizing to always fit in its window.
