

DHTML Popups Explained

Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

Our tutorial site aims to teach all medium or advanced HTML/Javascript coders how to design and develop their own DHTML popups. DHTML/Ajax popups are very important since they cannot be blocked and they can be enhanced with great visual effects (fading, drop-down, sliding etc). The site features live and downloadable samples to illustrate our proposed code for each step.
