

dhtmlxCombo - Ajax Autocomplete Combobox

Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

Easy-configurable JavaScript combobox with Ajax support, autocomplete functionality, and wide cross-browser compatibility. The features include type-ahead, keyboard support, and the ability to display images in the dropdown list. dhtmlxCombo can be easily converted from existing HTML SELECT or populated with JavaScript. The component works fast with large sets of data, loading list of suggestions dynamically on demand.
