DiaporamaWeb 2.00 is an automatic software for creation of photos galleries intended to be published on Internet. Very simple of use it makes it possible in some clicks to publish numerical album-photographs on the Web or to consult them on a computer locally (or CDrom) DiaporamaWeb automatically produces the thumbnails and pages HTML in the form of an animated diaporama (small or full screen) and smalls thumbnails. DiaporamaWeb duplicates and optimizes automatically the numerical photographs for a faster transfer on Internet.
