DigiOz Graphic Counter

Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

The DigiOz Graphic counter is a counter script written specifically for PHP files. This script counts the number of times a PHP page has been viewed through the browser. In order for the script to work, the counter.php file will have to be included inside the page you want to show the counter at. There are several different counter style images included with this script for use.
