

# Display human friendly relative dates and times

<b>Address</b>	{value_address}
<b>Contact Person</b>	{value_contact_person}
<b>Mobile Number</b>	{value_mobile_number}
<b>Email</b>	{value_email}

One of the really lovely features that social sites like Twitter and Facebook give to users is a nice friendly way of displaying relative dates and times. For example: "1 hour ago" "Next Tuesday" "Next month" This PHP class converts an SQL date into a human friendly string representing that date and time relative to now.
