Displaying Dates and Times with ASP

Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

There are various ways to display Dates and Times. You can display the Date in the standard MM/DD/YYYY or with the name of the day and month. You can display the Date with the Time or the Time all by itself. You can also abbreviate the name of the Day or display the Time in either 24 hour or 12 hour format. This article will show you the basics of how it is done.
