Domain Tools Script is a powerful PHP-based script that consists of many amazing Domain & IP Tools it allows you to search domain names instantly. It has a built-in whois domain tool, domain generator tool, hostname & IP lookup tool, domain DNS records tool. It is built with a fully responsive design based on Latest Bootstrap to ensure that your website will look absolutely flawless and beautiful on every mobile and desktop device. It also has strong cross-browser support. It verifies domain availability by doing a DNS query to get search results as fast as possible. You make money when someone buys domain names through one of your affiliate referral links. You can also earn through Google AdSense or similar platforms. There is a lot more to discover for you & we have great plans for future updates.
