

# Drift

<b>Address</b>	{value_address}
<b>Contact Person</b>	{value_contact_person}
<b>Mobile Number</b>	{value_mobile_number}
<b>Email</b>	{value_email}

When DRIFT becomes activated it will enable the element to constantly drift towards the attention of the user, resting and then re-activating in accordance with the user's scrolling actions. Imagine a shopping cart in the sidebar of your website. It would be greatly beneficial to the user if that shopping cart remained in their view even when scrolling down the page. The same can be said for navigation menus, user alerts or advertisements. Use this plugin as you wish.
