OsCommerce is quickly becoming the shopping cart of choice for many online merchants! This script is simply AWESOME! You can literally have a store set up and ready to take orders within an hour! The script comes with a VERY easy to use admin section where you add all of the products, manage customers, shipping, tax, payment process, inventory, and just so much more to mention! You can use MANY, MANY different payment gateways with osCommerce including PayPal, 2Checkout, authorize.net, and many more! This version of the script is NOT simply the snapshot version THIS IS THE MILESTONE RELEASE
